I'm an ISTQB certified tester at both the foundation and test automation engineer levels. I hold Professional Scrum Master 1 and 2 certifications. My career objective is to leverage my extensive expertise as a dedicated software tester and quality assurance specialist to drive consistent and organized practices, ensuring the achievement of company objectives. I thrive in high-pressure environments, excelling at adapting to new challenges to enhance the organizational brand. I aim to contribute my exceptional interpersonal and collaboration skills to foster a dynamic, goal-driven team environment. Together, we'll create exceptional results and exceed our organizational goals.

Work History

May 2023 – Present

Test Analyst

Foster Moore, Auckland, New Zealand

- Prepare test scripts: manual and automated in accordance with client specifications.
- Perform functional testing across different test levels: component, integration system and acceptance to ensure high-quality releases.
- Execute test plans, monitor test execution, and ensure that sufficient testing is carried out prior to go-live.
- Carry out other testing tasks as agreed with the Project Test Lead or Test Manager

Skills: *Bug Tracking · Automation · Jira · Agile Testing · Functional Testing · Quality Assurance · Test Automation · Scrum · Test Automation Engineer · Agile Methodologies · Manual Testing · Software Testing*

November 2019 – April 2023

Software Tester

GameZovah, Auckland, New Zealand

- Write and optimize test cases to maximize success of functional and non-functional software testing with consistent, thorough approaches.
- Assessed software bugs and compiled findings along with suggested resolutions for development team members.
- Supported test review, defect control and configuration management within delivery pipeline.

- Defined and identified test cases for new application development.
- Optimized test cases to maximize success of manual software testing.
- API testing

Skills: *Bug Tracking · Jira · Postman API · Agile Testing · Functional Testing · Quality Assurance · Regression Testing · Web Services API · Test Automation Engineer · Agile Methodologies · Manual Testing · Software Testing*

October 2015 – October 2019

Business Analyst

AHBS, Auckland, New Zealand

- Improved business direction by prioritizing customers and implementing changes based on collected feedback.
- Applied honed problem-solving skills to analyze and resolve issues impacting business operations and goal achievement.
- Interacted with internal customers to understand business needs and translate them into requirements and project scope.
- Analyzed key aspects of the business to evaluate factors driving results and summarized them into presentations.
- Delivered analysis of market, sales and consumer trend impact on long and short-term strategies.
